

# Cougar Programming Contest

January 29, 2005  
10:30a-12:30p

University of Houston  
Cullen College of Engineering  
E421 Engineering Bldg 2  
Houston, TX 77204-4007  
ATTN: Tau Beta Pi

## Information

Directions of course vary and you may get more maps from <http://www.uh.edu/cgi-bin/campusmap>. The best entrance method is to take I-45 and exit at Spur 5. Cars are recommended if possible as they are allowed to park closer to campus than busses due to a new rule in effect this year. Students will be located at key spots to help guide you to the right place.

Busses should turn right on University Dr. and then right onto Calhoun Dr.. You can turn right into Parking Lot 20A and park here. You will have to carry your computer systems to the University Center.

Cars should turn right on University Dr. and then continue straight until Parking Lot 1B. This is visitor parking and is next to the University Center. Parking is free on Saturday.

The contest will be on the second floor of the University Center in the Houston Room. Again students will help you find your way.

Problems will be turned in on floppy disks; both source code and compiled executables. Correct submissions will be held until the end of the contest and then returned to the sponsors.

Following the contest students can pack up their computers and then will be guided back to the Cullen College of Engineering where lunch will be sold and presentations made.
